WELCOME TO KESTREL INFO SERVICES

What we do

Kestrel Info Services provides reliable and affordable access to expertise and information that helps organizations save time and resources in planning for the future, obtaining funding, and achieving their service goals.

Our key services are:

- Research, planning and development consultancy for public libraries and nonprofit organizations.
- *Hawk's Eye on Public Libraries* - a monthly news bulletin for the Canadian public library sector.
- Publicity and marketing consultancy and assignments.
- Writing, editing and proofreading services.

Who's our audience?

Kestrel Info Services has two prime audiences: public libraries, and nonprofit organizations such as charities, social services and community organizations.

We specialize in supporting busy executives who need to respond effectively to multiple priorities, and need to outsource planning and development projects, or individual tasks within larger projects. As well as undertaking essential planning and development projects, we're available to carry out short one-off assignments, and recurring tasks.

Thank you for your interest in Kestrel Info Services.

Please [contact us directly](#) for more information about any aspect of our business.
